Kramat Jati, Jakarta Timur

Front End Developer skilled in building responsive, user- focused interfaces using React.js, Next.js, Tailwind CSS, and Figma. Experienced in turning prototypes into functional UI components and integrating frontend features with RESTful APIs. Committed to delivering clean, maintainable, and high-performance web applications.

## Education Level

Universitas Bina Nusantara - Jakarta

Sep 2021 - Sep 2025

Bachelor of Computer Science, 3.78/4.00

## Work Experiences

Birudesa Hypermedia - Jakarta

Aug 2025 - Present

Full Stack Developer Internship

- Designed and developed intuitive, responsive, and user- friendly interfaces for the company's internal web system using Figma, improving interface clarity and navigation efficiency by 20%.
- Developed the internal company website based on approved prototypes, utilizing React.js for the frontend and Laravel for the backend, resulting in smoother feature delivery and reducing development time by 15%.
- Conducted Blackbox Testing and User Acceptance Testing (UAT) to ensure product quality, functionality, and stability before production deployment, reducing pre-release issues by 25%.
- Implemented development workflows using GitHub for version control, change documentation, and code maintenance, increasing team development consistency by 30%.

PT Cyberindo Aditama (CBN) - Jakarta

Feb 2024 - Feb 2025

Fullstack Developer Intern

- Developed key modules for the company's internal website using the Laravel framework to support operational needs, improving workflow efficiency by 15%.
- Used GitLab as a collaboration platform for module development, including code reviews, merge requests, and feature updates, which increased development accuracy and consistency by 20%.
- Created and refined interface designs for website modules using Figma prior to implementation, enhancing design clarity and reducing revision cycles by 25%.
- Performed User Acceptance Testing (UAT) to validate functionality and ensure each module met the required specifications, decreasing post-release fixes by 30%.

## Organization Experience

Teach For Indonesia - Jakarta

Aug 2023 - Sep 2023

English Tutor

- Designed and delivered engaging English lesson materials for 6th-grade students, resulting in improved classroom participation and comprehension.
- Collaborated with educators to develop innovative teaching strategies that enhanced overall learning outcomes.
- Strengthened communication skills through consistent interaction with students and cross-functional teaching teams.
- Managed time effectively to produce high-quality lesson plans and supplementary activities, increasing student engagement and learning retention.

Social Online Campaign and Beach Clean up - Jakarta

Aug 2022

Volunteer

- Conducted targeted social media campaigns on coastal preservation, increasing public awareness and engagement in marine conservation efforts.
- Volunteered in beach cleanup initiatives, collaborating with team members to optimize waste collection and contribute to a cleaner and more sustainable coastal environment.
